HEALTHY WATERWAYS,
HEALTHY REGION

HEALTHY RIVERS TO
REEF PARTNERSHIP
MACKAY-WHITSUNDAY-ISAAC

Contribute and connect with environmental management leaders

WHO ARE THE MACKAY- WHITSUNDAY- ISAAC HEALTHY RIVERS TO REEF PARTNERSHIP?

The Mackay-Whitsunday-Isaac Healthy Rivers to Reef Partnership (HR2RP) is a diverse group of organisations, businesses and government focused on waterway and marine environment health in our region. The group is made up of representatives who are leaders in the local environmental management space.

All sectors are represented at the table - from tourism, to ports and coal, agriculture, conservation, research, small business and industry, and Traditional Owners.

A core activity of the Partnership is to produce our region's only annual waterway health report card, part of a Queensland series. The report card provides vital information to government, potential regional investors, and our local community. It gives our community the information necessary to drive investment and management action, and to help secure waterway health for the future.

WHY INVEST?

WHAT WE CAN OFFER YOUR ORGANISATION

Improve your business's triple bottom line. Invest in your community and environment.

Regional priorities. We advocate for regional priorities identified by the Partnership.

Collaboration. Partners form valuable connections, and co-invest on projects where synergies naturally exist.

Robust data with integrity. We are developing a baseline that can be used by decision-makers to initiate informed waterway management actions.

Have a seat at the table.

The Partnership represents one of the only local channels to be a formal part of waterway health, with support from different levels of government.

Stability and engagement.

More than 80% of current Partners are founding members.

Influence our future, and promote your commitment.

Have a say in how the Partnership evolves, and use provided material to promote your involvement.

OUR PARTNERS

PARTNER TESTIMONIALS

"Dalrymple Bay Coal Terminal Pty Ltd (DBCT P/L) has been part of the Healthy Rivers to Reef Partnership since its inception. We value the Partnership's work, as well as the network it creates for Mackay and the Whitsundays. Being a member of the Partnership has enabled DBCT P/L to work with Mackay Regional Council and others on environmental projects. These activities progress our environmental and waterway goals, and were strongly assisted through the relationships developed by the Partnership."

- Ricci Churchill, Manager Safety, Risk and Environment, DBCT P/L

"The Partnership provides a platform to share our waterway information and, as a region, identify gaps and trends. Establishing a baseline for the condition of our waterways is very important as it helps us prioritise actions that will assist in achieving the partnership's vision."

- Robyn Birkett, Principal Engineer - Waterways, Strategic Planning,
Mackay Regional Council

"Canegrowers Mackay is a proud founding member of the Healthy Rivers to Reef Partnership. Reports produced by the Partnership have enabled us to feel confident in our discussions with state and federal governments about what needs to be done in our region. It will be great to see adequately funded positive actions come from this information in the years ahead."

- Kevin Borg, Chair, CANEGROWERS Mackay

"A major benefit of the Partnership is the breadth of stakeholders that are involved working together. The Partnership provides a forum that brings together diverse organisations specifically on initiatives to improve both the condition of, and our understanding of, water quality. This understanding is essential to good waterway health decision-making and management."

- Al Grundy, Councillor for Division 2, Whitsunday Regional Council

ABOVE: Current Partners as at June 2020.

READY TO COME ON BOARD?

HERE'S HOW

**Branding
and imagery
are available
for both
Partners &
Supporters
to promote
involvement**

If your sector or business sees waterway health as a priority, you are a potential partner.

Partnership options and costs are tiered for different organisation types. To become a Partner, contact our Executive Officer and we will take it from there.

YOUR REPRESENTATIVE

Partners who actively contribute gain the most.

Our Partners nominate a representative to attend and contribute to Partnership meetings and forums; and to manage the connections, relationships and opportunities that are generated through the Partnership.

SUPPORTER

Not ready to sit at the table? We offer a Supporter option for businesses and organisations who want to show their support for waterway health, but do not have the time and resources to invest in meetings and active contribution. Supporters pay \$500 or greater p/annum which does not include voting rights.

Funding Category	Annual Membership Contribution (excl GST)	Example of who could be in this category
Contributing Partners		
Tier 1	\$1,000-\$5,000	Local businesses, small companies and small public utilities, peak industry associations
Tier 2	\$5,000-\$10,000	Regional NRM bodies, medium companies, medium public utilities, universities, and research organisations
Tier 3	\$25,000-\$100,000	Large companies/industry/coal terminals, port authority
Community	\$50-\$1,000	Traditional Owner, community and conservation groups

NB: GST payable.
